

COMMONWEALTH OF VIRGINIA
STANDARD CONTRACT

Contract No. UCPJMU4631

This contract entered into this 21st day of July 2016, by Dove Medical Supply LLC called the "Contractor" and Commonwealth of Virginia, James Madison University called the "Purchasing Agency".

WITNESSETH that the Contractor and the Purchasing Agency, in consideration of the mutual covenants, promises and agreements herein contained, agree as follows:

SCOPE OF CONTRACT: The Contractor shall provide the services to the Purchasing Agency as set forth in the Contract Documents.

PERIOD OF PERFORMANCE: From August 1, 2016 through July 31, 2018 with four (4) two-year renewal options.

The contract documents shall consist of:

- (1) This signed form;
- (2) The following portions of the Request for Proposal MFK-880 dated November 17, 2015:
 - (a) The Statement of Needs,
 - (b) The General Terms and Conditions,
 - (c) The Special Terms and Conditions together with any negotiated modifications of those Special Conditions,
 - (d) Addendum No. One dated January 7, 2016,
 - (e) Addendum No. Two dated January 27, 2016;
- (3) The Contractor's Proposal dated January 27, 2016 and the following negotiated modification to the Proposal, all of which documents are incorporated herein.
 - (a) Negotiations Summary, dated July 20, 2016.

IN WITNESS WHEREOF, the parties have caused this Contract to be duly executed intending to be bound thereby.

I. PURPOSE

The purpose of this Request for Proposal (RFP) is to solicit sealed proposals from qualified sources to enter into a term contract to provide scientific equipment, chemicals, supplies, laboratory equipment, biologicals, and related items for James Madison University (JMU), an agency of the Commonwealth of Virginia. Initial contract shall be for one (1) year with an option to renew for 4 additional one-year periods.

II. BACKGROUND

James Madison University (JMU) is a comprehensive public institution in Harrisonburg, Virginia with an enrollment of approximately 20,000 students and 3,000 faculty and staff. There are over 600 individual departments on campus that support seven academic divisions. The University offers over 120 majors, minors, and concentrations. Further information about the University may be found at the following website: <http://www.jmu.edu>.

JMU regularly purchases a wide variety of scientific items to carry out its mission. These items include, but are not limited to scientific equipment, supplies, chemicals, biologicals, laboratory equipment, related items, and services. The approximate spend for scientific items during fiscal year 2014-2015 was approximately \$1,000,000.00; however, this is subject to change annually.

III. SMALL, WOMAN-OWNED AND MINORITY (SWAM) PARTICIPATION

It is the policy of the Commonwealth of Virginia to contribute to the establishment, preservation, and strengthening of small businesses and businesses owned by women and minorities and to encourage their participation in State procurement activities. The Commonwealth encourages contractors to provide for the participation of small businesses, and businesses owned by women and minorities through partnerships, joint ventures, subcontracts, and other contractual opportunities. Attachment B contains information on reporting spend data with subcontractors.

IV. STATEMENT OF NEEDS

James Madison University (JMU) desires to partner with contractors to provide quality scientific equipment, supplies, chemicals, biologicals, laboratory equipment, related items, and services. Offerors are encouraged to submit proposals for any or all of the product categories. All items are to be new and in original packaging. The Contractor shall not ship substitute items without prior approval from JMU personnel.

Describe in detail your approach to the following items.

1. Provide the link to your complete electronic catalog containing all available scientific items being offered. Include published price list or instructions on how to access published price list electronically.
2. Describe implementation of a hot list for JMU that will provide deeper discounts on frequently purchased items.
3. Note if willing to create an eVA punchout catalog for the scientific items being offered.
4. Note if you accept Small Purchase Charge Card (SPCC) payments in eVA and whether or not an end user needs to confirm via phone or email that they have made an eVA purchase with an SPCC.
5. State contact information for a local sales representative who could be dedicated to JMU.
6. List all contact information for ordering, invoicing, customer service, etc.

7. Describe experience in working with various departments at educational institutions similar to JMU. Include method of collaboration for individual orders.
8. Describe delivery options and policies including dry ice charges, hazardous material charges, and installation and training if required for the scientific items being offered. All orders shall be FOB destination. Include information regarding delivery costs and/or free delivery. Specify costs in *Section X. Pricing Schedule*.
9. Describe plan to offer a New Lab Start-up Program (if applicable).
10. Specify typical turnaround time for delivery (standard, rush, etc.) for the scientific items being offered.
11. Describe return policy and identify any associated costs. Any costs to be specified in *Section X. Pricing Schedule*.
12. Describe the process for replacement of defective, broken, or damaged scientific items.
13. Provide sample quote and invoice. Quotes shall include manufacturer list price and contracted discount price.
14. Identify any other goods or services being offered to JMU and associated costs as specified in *Section X. Pricing Schedule*.

V. PROPOSAL PREPARATION AND SUBMISSION

A. GENERAL INSTRUCTIONS:

To ensure timely and adequate consideration of your proposal, offerors are to limit all contact, whether verbal or written, pertaining to this RFP to the James Madison University Procurement Office for the duration of this Proposal process. Failure to do so may jeopardize further consideration of Offeror's proposal.

1. RFP Response: In order to be considered for selection, the Offeror shall submit a complete response to this RFP; and shall submit to the issuing Purchasing Agency:
 - a. **One (1) original and five (5) copies** of the entire proposal, INCLUDING ALL ATTACHMENTS. Any proprietary information should be clearly marked in accordance with 3.f below.
 - b. **One (1) electronic copy in WORD format or searchable PDF (CD or flash drive)** of the entire proposal, INCLUDING ALL ATTACHMENTS. Any proprietary information should be clearly marked in accordance with 3.f below.
 - c. Should the proposal contain **proprietary information**, provide **one (1) redacted hard copy** of the proposal and attachments **with proprietary portions removed or blacked out**. This copy should be clearly marked "*Redacted Copy*" on the front cover. The classification of an entire proposal document, line item prices and/or total proposal prices as proprietary or trade secrets is not acceptable. JMU shall not be responsible for the Contractor's failure to exclude proprietary information from this redacted copy.

No other distribution of the proposal shall be made by the Offeror.

2. The version of the solicitation issued by JMU Procurement Services as amended by any addenda is the mandatory controlling version of the document. Any modification of or additions to the solicitation by the Offeror shall not modify the official version of the solicitation issued by JMU Procurement Services

unless accepted in writing by the University. Such modifications or additions to the solicitation by the Offeror may be cause for rejection of the proposal; however, JMU reserves the right to decide, on a case by case basis, in its sole discretion, whether to reject such a proposal. If the modifications or additions are not identified until after the award of the contract, the controlling version of the solicitation document shall still be the official state form issued by Procurement Services.

3. Proposal Preparation:

- a. Proposals shall be signed by an authorized representative of the offeror. All information requested should be submitted. Failure to submit all information requested may result in the purchasing agency requiring prompt submissions of missing information and/or giving a lowered evaluation of the proposal. Proposals which are substantially incomplete or lack key information may be rejected by the purchasing agency. Mandatory requirements are those required by law or regulation or are such that they cannot be waived and are not subject to negotiation.
- b. Proposals should be prepared simply and economically, providing a straightforward, concise description of capabilities to satisfy the requirements of the RFP. Emphasis should be placed on completeness and clarity of content.
- c. Proposals should be organized in the order in which the requirements are presented in the RFP. All pages of the proposal should be numbered. Each paragraph in the proposal should reference the paragraph number of the corresponding section of the RFP. It is also helpful to cite the paragraph number, sub letter, and repeat the text of the requirement as it appears in the RFP. If a response covers more than one page, the paragraph number and sub letter should be repeated at the top of the next page. The proposal should contain a table of contents which cross references the RFP requirements. Information which the offeror desires to present that does not fall within any of the requirements of the RFP should be inserted at the appropriate place or be attached at the end of the proposal and designated as additional material. Proposals that are not organized in this manner risk elimination from consideration if the evaluators are unable to find where the RFP requirements are specifically addressed.
- d. As used in this RFP, the terms "must", "shall", "should" and "may" identify the criticality of requirements. "Must" and "shall" identify requirements whose absence will have a major negative impact on the suitability of the proposed solution. Items labeled as "should" or "may" are highly desirable, although their absence will not have a large impact and would be useful, but are not necessary. Depending on the overall response to the RFP, some individual "must" and "shall" items may not be fully satisfied, but it is the intent to satisfy most, if not all, "must" and "shall" requirements. The inability of an offeror to satisfy a "must" or "shall" requirement does not automatically remove that offeror from consideration; however, it may seriously affect the overall rating of the offeror's proposal.
- e. Each copy of the proposal should be bound or contained in a single volume where practical. All documentation submitted with the proposal should be contained in that single volume.
- f. Ownership of all data, materials and documentation originated and prepared for the State pursuant to the RFP shall belong exclusively to the State and be subject to public inspection in accordance with the Virginia Freedom of Information Act. Trade secrets or proprietary information submitted by the offeror shall not be subject to public disclosure under the Virginia Freedom of Information Act; however, the offeror must invoke the protection of Section 2.2-4342F of the Code of Virginia, in writing, either before or at the time the data is submitted. The written notice must specifically identify the data or materials to be protected and state the reasons why protection is necessary. The proprietary or trade secret materials submitted must be identified by some distinct method such as highlighting or underlining and must indicate only the specific words, figures, or paragraphs that constitute trade secret or proprietary information. The classification of an entire proposal document, line item prices and/or total proposal prices as proprietary or trade secrets is not acceptable and will result in rejection and

return of the proposal.

4. Oral Presentation: Offerors who submits a proposal in response to this RFP may be required to give an oral presentation of their proposal to James Madison University. This provides an opportunity for the offeror to clarify or elaborate on the proposal. This is a fact finding and explanation session only and does not include negotiation. James Madison University will schedule the time and location of these presentations. Oral presentations are an option of the University and may or may not be conducted. Therefore, proposals should be complete.

B. SPECIFIC PROPOSAL INSTRUCTIONS:

Proposals should be as thorough and detailed as possible so that James Madison University may properly evaluate your capabilities to provide the required services. Offerors are required to submit the following items as a complete proposal:

1. Return RFP cover sheet and all addenda acknowledgments, if any, signed and filled out as required.
2. Plan and methodology for providing the goods/services as described in Section IV "Statement of Needs" of this Request for Proposal.
3. A written narrative statement to include, but not limited to the expertise, qualifications, and experience of the firm and resumes of specific personnel to be assigned to perform the work.
4. Offeror Data Sheet, included as Attachment A to this RFP.
5. Small Business Subcontracting Plan, included as Attachment B to this RFP. Offeror shall provide a Small Business Subcontracting plan which summarizes the planned utilization of Department of Small Business and Supplier Diversity (DSBSD)-certified small businesses which include businesses owned by women and minorities, when they have received Department of Small Business and Supplier Diversity (DSBSD) small business certification, under the contract to be awarded as a result of this solicitation. This is a requirement for all prime contracts in excess of \$100,000 unless no subcontracting opportunities exist.
6. Identify the amount of sales your company had during the last twelve months with each VASCUPP Member Institution. A list of VASCUPP Members can be found at: www.VASCUPP.org.
7. Proposed Cost. See Section X. "Pricing Schedule" of this Request for Proposal.

VI. EVALUATION and AWARD CRITERIA

A. EVALUATION CRITERIA:

Proposals shall be evaluated by James Madison University using the following criteria:

| | <u>Points</u> |
|--|---------------|
| 1. Quality of products/services offered and suitability for the intended purposes. | 30 |
| 2. Qualifications and experience of Offeror in providing the goods/services. | 20 |
| 3. Specific plans or methodology to be used to perform the services. | 20 |
| 4. Participation of Small, Women-Owned and Minority (SWAM) Businesses | 10 |
| 5. Cost | 20 |
| | <hr/> 100 |

- B. AWARD TO MULTIPLE OFFERORS: Selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals on the basis of the evaluation factors included in the Request for Proposals, including price, if so stated in the Request for Proposals. Negotiations shall be conducted with the offerors so selected. Price shall be considered, but need not be the sole determining factor. After negotiations have been conducted with each offeror so selected, the agency shall select the offeror which, in its opinion, has made the best proposal, and shall award the contract to that offeror. The Commonwealth reserves the right to make multiple awards as a result of this solicitation. The Commonwealth may cancel this Request for Proposals or reject proposals at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous. Should the Commonwealth determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror. The award document will be a contract incorporating by reference all the requirements, terms and conditions of the solicitation and the contractor's proposal as negotiated.

VII. GENERAL TERMS AND CONDITIONS

- A. PURCHASING MANUAL: This solicitation is subject to the provisions of the Commonwealth of Virginia's Purchasing Manual for Institutions of Higher Education and Their Vendors and any revisions thereto, which are hereby incorporated into this contract in their entirety. A copy of the manual is available for review at the purchasing office. In addition, the manual may be accessed electronically at <http://www.jmu.edu/procurement> or a copy can be obtained by calling Procurement Services at (540) 568-3145.
- B. APPLICABLE LAWS AND COURTS: This solicitation and any resulting contract shall be governed in all respects by the laws of the Commonwealth of Virginia and any litigation with respect thereto shall be brought in the courts of the Commonwealth. The Contractor shall comply with applicable federal, state and local laws and regulations.
- C. ANTI-DISCRIMINATION: By submitting their proposals, offerors certify to the Commonwealth that they will conform to the provisions of the Federal Civil Rights Act of 1964, as amended, as well as the Virginia Fair Employment Contracting Act of 1975, as amended, where applicable, the Virginians With Disabilities Act, the Americans With Disabilities Act and §10 of the Rules Governing Procurement, Chapter 2, Exhibit J, Attachment 1 (available for review at <http://www.jmu.edu/procurement>). If the award is made to a faith-based organization, the organization shall not discriminate against any recipient of goods, services, or disbursements made pursuant to the contract on the basis of the recipient's religion, religious belief, refusal to participate in a religious practice, or on the basis of race, age, color, gender or national origin and shall be subject to the same rules as other organizations that contract with public bodies to account for the use of the funds provided; however, if the faith-based organization segregates public funds into separate accounts, only the accounts and programs funded with public funds shall be subject to audit by the public body. (*§6 of the Rules Governing Procurement*)

In every contract over \$10,000 the provisions in 1. and 2. below apply:

1. During the performance of this contract, the contractor agrees as follows:
 - a. The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
 - b. The contractor, in all solicitations or advertisements for employees placed by or on behalf of the contractor, will state that such contractor is an equal opportunity employer.

- c. Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting these requirements.
 2. The contractor will include the provisions of 1. above in every subcontract or purchase order over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.
- D. ETHICS IN PUBLIC CONTRACTING: By submitting their proposals, offerors certify that their proposals are made without collusion or fraud and that they have not offered or received any kickbacks or inducements from any other offeror, supplier, manufacturer or subcontractor in connection with their proposal, and that they have not conferred on any public employee having official responsibility for this procurement transaction any payment, loan, subscription, advance, deposit of money, services or anything of more than nominal value, present or promised, unless consideration of substantially equal or greater value was exchanged.
- E. IMMIGRATION REFORM AND CONTROL ACT OF 1986: By entering into a written contract with the Commonwealth of Virginia, the Contractor certifies that the Contractor does not, and shall not during the performance of the contract for goods and services in the Commonwealth, knowingly employ an unauthorized alien as defined in the federal Immigration Reform and Control Act of 1986.
- F. DEBARMENT STATUS: By submitting their proposals, offerors certify that they are not currently debarred by the Commonwealth of Virginia from submitting bids or proposals on contracts for the type of goods and/or services covered by this solicitation, nor are they an agent of any person or entity that is currently so debarred.
- G. ANTITRUST: By entering into a contract, the contractor conveys, sells, assigns, and transfers to the Commonwealth of Virginia all rights, title and interest in and to all causes of action it may now have or hereafter acquire under the antitrust laws of the United States and the Commonwealth of Virginia, relating to the particular goods or services purchased or acquired by the Commonwealth of Virginia under said contract.
- H. MANDATORY USE OF STATE FORM AND TERMS AND CONDITIONS RFPs: Failure to submit a proposal on the official state form provided for that purpose may be a cause for rejection of the proposal. Modification of or additions to the General Terms and Conditions of the solicitation may be cause for rejection of the proposal; however, the Commonwealth reserves the right to decide, on a case by case basis, in its sole discretion, whether to reject such a proposal.
- I. CLARIFICATION OF TERMS: If any prospective offeror has questions about the specifications or other solicitation documents, the prospective offeror should contact the buyer whose name appears on the face of the solicitation no later than five working days before the due date. Any revisions to the solicitation will be made only by addendum issued by the buyer.
- J. PAYMENT:
1. To Prime Contractor:
 - a. Invoices for items ordered, delivered and accepted shall be submitted by the contractor directly to the payment address shown on the purchase order/contract. All invoices shall show the state contract number and/or purchase order number; social security number (for individual contractors) or the federal employer identification number (for proprietorships, partnerships, and corporations).
 - b. Any payment terms requiring payment in less than 30 days will be regarded as requiring payment 30 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 30 days, however.
 - c. All goods or services provided under this contract or purchase order, that are to be paid for with public funds, shall be billed by the contractor at the contract price, regardless of which public agency is being billed.

- d. The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized under the Virginia Debt Collection Act.
- e. **Unreasonable Charges.** Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the Commonwealth shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within thirty (30) days of notification. The provisions of this section do not relieve an agency of its prompt payment obligations with respect to those charges which are not in dispute (*Rules Governing Procurement, Chapter 2, Exhibit J, Attachment 1 § 53; available for review at <http://www.jmu.edu/procurement>*).

2. To Subcontractors:

- a. A contractor awarded a contract under this solicitation is hereby obligated:

- (1) To pay the subcontractor(s) within seven (7) days of the contractor's receipt of payment from the Commonwealth for the proportionate share of the payment received for work performed by the subcontractor(s) under the contract; or
- (2) To notify the agency and the subcontractor(s), in writing, of the contractor's intention to withhold payment and the reason.

- b. The contractor is obligated to pay the subcontractor(s) interest at the rate of one percent per month (unless otherwise provided under the terms of the contract) on all amounts owed by the contractor that remain unpaid seven (7) days following receipt of payment from the Commonwealth, except for amounts withheld as stated in (2) above. The date of mailing of any payment by U. S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract. A contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the Commonwealth.

- 3. Each prime contractor who wins an award in which provision of a SWAM procurement plan is a payment, evidence and certification of compliance (subject only to insubstantial shortfalls and to shortfalls arising from subcontractor default) with the SWAM procurement plan. Final payment under the contract in question may be withheld until such certification is delivered and, if necessary, confirmed by the agency or institution, or other appropriate penalties may be assessed in lieu of withholding such payment.
- 4. The Commonwealth of Virginia encourages contractors and subcontractors to accept electronic and credit card payments.

K. **PRECEDENCE OF TERMS:** Paragraphs A through J of these General Terms and Conditions and the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and their Vendors, shall apply in all instances. In the event there is a conflict between any of the other General Terms and Conditions and any Special Terms and Conditions in this solicitation, the Special Terms and Conditions shall apply.

L. **QUALIFICATIONS OF OFFERORS:** The Commonwealth may make such reasonable investigations as deemed proper and necessary to determine the ability of the offeror to perform the services/furnish the goods and the offeror shall furnish to the Commonwealth all such information and data for this purpose as may be requested. The Commonwealth reserves the right to inspect offeror's physical facilities prior to award to satisfy

questions regarding the offeror's capabilities. The Commonwealth further reserves the right to reject any proposal if the evidence submitted by, or investigations of, such offeror fails to satisfy the Commonwealth that such offeror is properly qualified to carry out the obligations of the contract and to provide the services and/or furnish the goods contemplated therein.

- M. TESTING AND INSPECTION: The Commonwealth reserves the right to conduct any test/inspection it may deem advisable to assure goods and services conform to the specifications.
- N. ASSIGNMENT OF CONTRACT: A contract shall not be assignable by the contractor in whole or in part without the written consent of the Commonwealth.
- O. CHANGES TO THE CONTRACT: Changes can be made to the contract in any of the following ways:
1. The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract.
 2. The Purchasing Agency may order changes within the general scope of the contract at any time by written notice to the contractor. Changes within the scope of the contract include, but are not limited to, things such as services to be performed, the method of packing or shipment, and the place of delivery or installation. The contractor shall comply with the notice upon receipt. The contractor shall be compensated for any additional costs incurred as the result of such order and shall give the Purchasing Agency a credit for any savings. Said compensation shall be determined by one of the following methods:
 - a. By mutual agreement between the parties in writing; or
 - b. By agreeing upon a unit price or using a unit price set forth in the contract, if the work to be done can be expressed in units, and the contractor accounts for the number of units of work performed, subject to the Purchasing Agency's right to audit the contractor's records and/or to determine the correct number of units independently; or
 - c. By ordering the contractor to proceed with the work and keep a record of all costs incurred and savings realized. A markup for overhead and profit may be allowed if provided by the contract. The same markup shall be used for determining a decrease in price as the result of savings realized. The contractor shall present the Purchasing Agency with all vouchers and records of expenses incurred and savings realized. The Purchasing Agency shall have the right to audit the records of the contractor as it deems necessary to determine costs or savings. Any claim for an adjustment in price under this provision must be asserted by written notice to the Purchasing Agency within thirty (30) days from the date of receipt of the written order from the Purchasing Agency. If the parties fail to agree on an amount of adjustment, the question of an increase or decrease in the contract price or time for performance shall be resolved in accordance with the procedures for resolving disputes provided by the Disputes Clause of this contract or, if there is none, in accordance with the disputes provisions of the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and their Vendors. Neither the existence of a claim nor a dispute resolution process, litigation or any other provision of this contract shall excuse the contractor from promptly complying with the changes ordered by the Purchasing Agency or with the performance of the contract generally.
- P. DEFAULT: In case of failure to deliver goods or services in accordance with the contract terms and conditions, the Commonwealth, after due oral or written notice, may procure them from other sources and hold the contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies which the Commonwealth may have.
- Q. INSURANCE: By signing and submitting a proposal under this solicitation, the offeror certifies that if

awarded the contract, it will have the following insurance coverage at the time the contract is awarded. For construction contracts, if any subcontractors are involved, the subcontractor will have workers' compensation insurance in accordance with § 25 of the Rules Governing Procurement – Chapter 2, Exhibit J, Attachment 1, and 65.2-800 et. Seq. of the Code of Virginia (available for review at <http://www.jmu.edu/procurement>) The offeror further certifies that the contractor and any subcontractors will maintain these insurance coverage during the entire term of the contract and that all insurance coverage will be provided by insurance companies authorized to sell insurance in Virginia by the Virginia State Corporation Commission.

MINIMUM INSURANCE COVERAGES AND LIMITS REQUIRED FOR MOST CONTRACTS:

1. Workers' Compensation – Statutory requirements and benefits. Coverage is compulsory for employers of three or more employees, to include the employer. Contractors who fail to notify the Commonwealth of increases in the number of employees that change their workers' compensation requirement under the Code of Virginia during the course of the contract shall be in noncompliance with the contract.
2. Employer's Liability - \$100,000.
3. Commercial General Liability - \$1,000,000 per occurrence and \$2,000,000 in the aggregate. Commercial General Liability is to include bodily injury and property damage, personal injury and advertising injury, products and completed operations coverage. The Commonwealth of Virginia must be named as an additional insured and so endorsed on the policy.
4. Automobile Liability - \$1,000,000 combined single limit. *(Required only if a motor vehicle not owned by the Commonwealth is to be used in the contract. Contractor must assure that the required coverage is maintained by the Contractor (or third party owner of such motor vehicle.)*

- R. **ANNOUNCEMENT OF AWARD:** Upon the award or the announcement of the decision to award a contract over \$50,000, as a result of this solicitation, the purchasing agency will publicly post such notice on the DGS/DPS eVA web site (www.eva.virginia.gov) for a minimum of 10 days.
- S. **DRUG-FREE WORKPLACE:** During the performance of this contract, the contractor agrees to (i) provide a drug-free workplace for the contractor's employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or on behalf of the contractor that the contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing clauses in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.

For the purposes of this section, "drug-free workplace" means a site for the performance of work done in connection with a specific contract awarded to a contractor, the employees of whom are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the contract.

- T. **NONDISCRIMINATION OF CONTRACTORS:** A bidder, offeror, or contractor shall not be discriminated against in the solicitation or award of this contract because of race, religion, color, sex, national origin, age, disability, faith-based organizational status, any other basis prohibited by state law relating to discrimination in employment or because the bidder or offeror employs ex-offenders unless the state agency, department or institution has made a written determination that employing ex-offenders on the specific contract is not in its best interest. If the award of this contract is made to a faith-based organization and an individual, who applies for or receives goods, services, or disbursements provided pursuant to this contract objects to the religious character of the faith-based organization from which the individual receives or would receive the goods, services, or disbursements, the public body shall offer the individual, within a reasonable period of time after

the date of his objection, access to equivalent goods, services, or disbursements from an alternative provider.

- U. eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION, CONTRACTS, AND ORDERS: The eVA Internet electronic procurement solution, website portal www.eVA.virginia.gov, streamlines and automates government purchasing activities in the Commonwealth. The eVA portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services to the Commonwealth shall participate in the eVA Internet e-procurement solution by completing the free eVA Vendor Registration. All offerors must register in eVA and pay the Vendor Transaction Fees specified below; failure to register will result in the proposal being rejected.

Vendor transaction fees are determined by the date the original purchase order is issued and the current fees are as follows:

- a. For orders issued July 1, 2014 and after, the Vendor Transaction Fee is:
- (i) Department of Small Business and Supplier Diversity (DSBSD)-certified Small Businesses: 1%, capped at \$500 per order.
 - (ii) Businesses that are not Department of Small Business and Supplier Diversity (DSBSD)-certified Small Businesses: 1%, capped at \$1,500 per order.

For orders issued prior to July 1, 2014 the vendor transaction fees can be found at www.eVA.virginia.gov.

The specified vendor transaction fee will be invoiced, by the Commonwealth of Virginia Department of General Services, approximately 60 days after the corresponding purchase order is issued and payable 30 days after the invoice date. Any adjustments (increases/decreases) will be handled through purchase order changes.

- V. AVAILABILITY OF FUNDS: It is understood and agreed between the parties herein that the Commonwealth of Virginia shall be bound hereunder only to the extent of the funds available or which may hereafter become available for the purpose of this agreement.
- W. PROPOSAL PRICE CURRENCY: Unless stated otherwise in the solicitation, offerors shall state offer prices in US dollars.
- X. E-VERIFY REQUIREMENT OF ANY CONTRACTOR: Any employer with more than an average of 50 employees for the previous 12 months entering into a contract in excess of \$50,000 with James Madison University to perform work or provide services pursuant to such contract shall register and participate in the E-Verify program to verify information and work authorization of its newly hired employees performing work pursuant to any awarded contract.
- Y. TAXES: Sales to the Commonwealth of Virginia are normally exempt from State sales tax. State sales and use tax certificates of exemption, Form ST-12, will be issued upon request. Deliveries against this contract shall usually be free of Federal excise and transportation taxes. The Commonwealth's excise tax exemption registration number is 54-73-0076K.
- Z. USE OF BRAND NAMES: Unless otherwise provided in this solicitation, the name of a certain brand, make or manufacturer does not restrict offerors to the specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which the public body, in its sole discretion, determines to be the equivalent of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The Offeror is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable the Commonwealth to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Normally in competitive sealed bidding only the information furnished with the bid will be considered in the evaluation. Failure to furnish adequate data for evaluation

purposes may result in declaring a bid nonresponsive. Unless the Offeror clearly indicates in its proposal that the product offered is an equivalent product, such proposal will be considered to offer the brand name product referenced in the solicitation.

- AA. **TRANSPORTATION AND PACKAGING:** By submitting their proposals, all offerors certify and warrant that the price offered for FOB destination includes only the actual freight rate costs at the lowest and best rate and is based upon the actual weight of the goods to be shipped. Except as otherwise specified herein, standard commercial packaging, packing and shipping containers shall be used. All shipping containers shall be legibly marked or labeled on the outside with purchase order number, commodity description, and quantity.

VIII. SPECIAL TERMS AND CONDITIONS

- A. **AUDIT:** The Contractor hereby agrees to retain all books, records, systems, and other documents relative to this contract for five (5) years after final payment, or until audited by the Commonwealth of Virginia, whichever is sooner. The Commonwealth of Virginia, its authorized agents, and/or State auditors shall have full access to and the right to examine any of said materials during said period.
- B. **CANCELLATION OF CONTRACT:** James Madison University reserves the right to cancel and terminate any resulting contract, in part or in whole, without penalty, upon 60 days written notice to the contractor. In the event the initial contract period is for more than 12 months, the resulting contract may be terminated by either party, without penalty, after the initial 12 months of the contract period upon 60 days written notice to the other party. Any contract cancellation notice shall not relieve the contractor of the obligation to deliver and/or perform on all outstanding orders issued prior to the effective date of cancellation.
- C. **IDENTIFICATION OF PROPOSAL ENVELOPE:** The signed proposal should be returned in a separate envelope or package, sealed and identified as follows:

From: _____

| | | |
|-----------------------|------------|------|
| Name of Offeror | Due Date | Time |
| Street or Box No. | RFP Number | |
| City, State, Zip Code | RFP Title | |

Name of Purchasing Officer: _____

The envelope should be addressed as directed on the title page of the solicitation.

The offeror takes the risk that if the envelope is not marked as described above, it may be inadvertently opened and the information compromised, which may cause the proposal to be disqualified. Proposals may be hand delivered to the designated location in the office issuing the solicitation. No other correspondence or other proposals should be placed in the envelope.

- D. **LATE PROPOSALS:** To be considered for selection, proposals must be received by the issuing office by the designated date and hour. The official time used in the receipt of proposals is that time on the automatic time stamp machine in the issuing office. Proposals received in the issuing office after the date and hour designated are automatically non-responsive and will not be considered. The University is not responsible for delays in the delivery of mail by the U.S. Postal Service, private couriers, or the intra university mail system. It is the sole responsibility of the Offeror to ensure that its proposal reaches the issuing office by the designated date and hour.

- E. **UNDERSTANDING OF REQUIREMENTS:** It is the responsibility of each offeror to inquire about and clarify any requirements of this solicitation that is not understood. The University will not be bound by oral explanations as to the meaning of specifications or language contained in this solicitation. Therefore, all inquiries deemed to be substantive in nature must be in writing and submitted to the responsible buyer in the Procurement Services Office. Offerors must ensure that written inquiries reach the buyer at least five (5) days prior to the time set for receipt of offerors proposals. A copy of all queries and the respective response will be provided in the form of an addendum to all offerors who have indicated an interest in responding to this solicitation. Your signature on your Offer certifies that you fully understand all facets of this solicitation. These questions may be sent by Fax to 540/ 568-7936 or 540/568-7935.
- F. **RENEWAL OF CONTRACT:** This contract may be renewed by the Commonwealth for a period of four (4) successive one year periods under the terms and conditions of the original contract except as stated in 1 and 2 below. Price increases may be negotiated only at the time of renewal. Written notice of the Commonwealth's intention to renew shall be given approximately 90 days prior to the expiration date of each contract period.
1. If the Commonwealth elects to exercise the option to renew the contract for an additional one-year period, the contract price(s) for the additional one year shall not exceed the contract price(s) of the original contract increased/decreased by no more than the percentage increase/decrease of the other services category of the CPI-W section of the Consumer Price Index of the United States Bureau of Labor Statistics for the latest twelve months for which statistics are available.
 2. If during any subsequent renewal periods, the Commonwealth elects to exercise the option to renew the contract, the contract price(s) for the subsequent renewal period shall not exceed the contract price(s) of the previous renewal period increased/decreased by more than the percentage increase/decrease of the other services category of the CPI-W section of the Consumer Price Index of the United States Bureau of Labor Statistics for the latest twelve months for which statistics are available.
- G. **SUBMISSION OF INVOICES:** All invoices shall be submitted within sixty days of contract term expiration for the initial contract period as well as for each subsequent contract renewal period. Any invoices submitted after the sixty day period will not be processed for payment.
- H. **OPERATING VEHICLES ON JAMES MADISON UNIVERSITY CAMPUS:** Operating vehicles on sidewalks, plazas, and areas heavily used by pedestrians is prohibited. In the unlikely event a driver should find it necessary to drive on James Madison University sidewalks, plazas, and areas heavily used by pedestrians, the driver must yield to pedestrians. For a complete list of parking regulations, please go to www.jmu.edu/parking; or to acquire a service representative parking permit, contact Parking Services at 540.568.3300. The safety of our students, faculty and staff is of paramount importance to us. Accordingly, violators may be charged.
- I. **COOPERATIVE PURCHASING / USE OF AGREEMENT BY THIRD PARTIES:** It is the intent of this solicitation and resulting contract(s) to allow for cooperative procurement. Accordingly, any public body, (to include government/state agencies, political subdivisions, etc.), cooperative purchasing organizations, public or private health or educational institutions or any University related foundation and affiliated corporations may access any resulting contract if authorized by the Contractor.

Participation in this cooperative procurement is strictly voluntary. If authorized by the Contractor(s), the resultant contract(s) will be extended to the entities indicated above to purchase goods and services in accordance with contract terms. As a separate contractual relationship, the participating entity will place its own orders directly with the Contractor(s) and shall fully and independently administer its use of the contract(s) to include contractual disputes, invoicing and payments without direct administration from the University. No modification of this contract or execution of a separate agreement is required to participate; however, the participating entity and the Contractor may modify the terms and conditions of this contract to accommodate specific governing laws, regulations, policies, and business goals required by the participating entity. Any such modification will apply solely between the participating entity and the Contractor.

The Contractor will notify the University in writing of any such entities accessing this contract. The Contractor will provide semi-annual usage reports for all entities accessing the contract. The University shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract. It is understood and agreed that the University is not responsible for the acts or omissions of any entity and will not be considered in default of the contract no matter the circumstances.

Use of this contract(s) does not preclude any participating entity from using other contracts or competitive processes as needed.

J. SMALL BUSINESS SUBCONTRACTING AND EVIDENCE OF COMPLIANCE:

1. It is the goal of the Commonwealth that 42% of its purchases are made from small businesses. This includes discretionary spending in prime contracts and subcontracts. All potential offerors are required to submit a Small Business Subcontracting Plan. Unless the offeror is registered as a Department of Small Business and Supplier Diversity (DSBSD)-certified small business and where it is practicable for any portion of the awarded contract to be subcontracted to other suppliers, the contractor is encouraged to offer such subcontracting opportunities to DSBSD-certified small businesses. This shall not exclude DSBSD-certified women-owned and minority-owned businesses when they have received DSBSD small business certification. No offeror or subcontractor shall be considered a Small Business, a Women-Owned Business or a Minority-Owned Business unless certified as such by the Department of Small Business and Supplier Diversity (DSBSD) by the due date for receipt of proposals. If small business subcontractors are used, the prime contractor agrees to report the use of small business subcontractors by providing the purchasing office at a minimum the following information: name of small business with the DSBSD certification number or FEIN, phone number, total dollar amount subcontracted, category type (small, women-owned, or minority-owned), and type of product/service provided. **This information shall be submitted to: JMU Office of Procurement Services, Attn: SWAM Subcontracting Compliance, MSC 5720, Harrisonburg, VA 22807.**
2. Each prime contractor who wins an award in which provision of a small business subcontracting plan is a condition of the award, shall deliver to the contracting agency or institution with every request for payment, evidence of compliance (subject only to insubstantial shortfalls and to shortfalls arising from subcontractor default) with the small business subcontracting plan. **This information shall be submitted to: JMU Office of Procurement Services, SWAM Subcontracting Compliance, MSC 5720, Harrisonburg, VA 22807.** When such business has been subcontracted to these firms and upon completion of the contract, the contractor agrees to furnish the purchasing office at a minimum the following information: name of firm with the Department of Small Business and Supplier Diversity (DSBSD) certification number or FEIN number, phone number, total dollar amount subcontracted, category type (small, women-owned, or minority-owned), and type of product or service provided. Payment(s) may be withheld until compliance with the plan is received and confirmed by the agency or institution. The agency or institution reserves the right to pursue other appropriate remedies to include, but not be limited to, termination for default.
3. Each prime contractor who wins an award valued over \$200,000 shall deliver to the contracting agency or institution with every request for payment, information on use of subcontractors that are not Department of Small Business and Supplier Diversity (DSBSD)-certified small businesses. When such business has been subcontracted to these firms and upon completion of the contract, the contractor agrees to furnish the purchasing office at a minimum the following information: name of firm, phone number, FEIN number, total dollar amount subcontracted, and type of product or service provided. **This information shall be submitted to: JMU Office of Procurement Services, Attn: SWAM Subcontracting Compliance, MSC 5720, Harrisonburg, VA 22807.**

K. ADDITIONAL GOODS AND SERVICES: The University may acquire other goods or services that the supplier provides than those specifically solicited. The University reserves the right, subject to mutual

agreement, for the Contractor to provide additional goods and/or services under the same pricing, terms, and conditions and to make modifications or enhancements to the existing goods and services. Such additional goods and services may include other products, components, accessories, subsystems, or related services that are newly introduced during the term of this Agreement. Such additional goods and services will be provided to the University at favored nations pricing, terms, and conditions.

- L. AUTHORIZATION TO CONDUCT BUSINESS IN THE COMMONWEALTH: A contractor organized as a stock or nonstock corporation, limited liability company, business trust, or limited partnership or registered as a registered limited liability partnership shall be authorized to transact business in the Commonwealth as a domestic or foreign business entity if so required by Title 13.1 or Title 50 of the *Code of Virginia* or as otherwise required by law. Any business entity described above that enters into a contract with a public body shall not allow its existence to lapse or its certificate of authority or registration to transact business in the Commonwealth, if so required under Title 13.1 or Title 50, to be revoked or cancelled at any time during the term of the contract. A public body may void any contract with a business entity if the business entity fails to remain in compliance with the provisions of this section.
- M. PUBLIC POSTING OF COOPERATIVE CONTRACTS: James Madison University maintains a web-based contracts database with a public gateway access. Any resulting cooperative contract/s to this solicitation will be posted to the publicly accessible website. Contents identified as proprietary information will not be made public.
- N. CRIMINAL BACKGROUND CHECKS OF PERSONNEL ASSIGNED BY CONTRACTOR TO PERFORM WORK ON JMU PROPERTY: The Contractor shall obtain criminal background checks on all of their contracted employees who will be assigned to perform services on James Madison University property. The results of the background checks will be directed solely to the Contractor. The Contractor bears responsibility for confirming to the University contract administrator that the background checks have been completed prior to work being performed by their employees or subcontractors. The Contractor shall only assign to work on the University campus those individuals whom it deems qualified and permissible based on the results of completed background checks. Notwithstanding any other provision herein, and to ensure the safety of students, faculty, staff and facilities, James Madison University reserves the right to approve or disapprove any contract employee that will work on JMU property. Disapproval by the University will solely apply to JMU property and should have no bearing on the Contractor's employment of an individual outside of James Madison University.
- O. INDEMNIFICATION: Contractor agrees to indemnify, defend and hold harmless the Commonwealth of Virginia, its officers, agents, and employees from any claims, damages and actions of any kind or nature, whether at law or in equity, arising from or caused by the use of any materials, goods, or equipment of any kind or nature furnished by the contractor/any services of any kind or nature furnished by the contractor, provided that such liability is not attributable to the sole negligence of the using agency or to failure of the using agency to use the materials, goods, or equipment in the manner already and permanently described by the contractor on the materials, goods or equipment delivered.
- P. SPECIAL EDUCATIONAL OR PROMOTIONAL DISCOUNTS: The contractor shall extend any special educational or promotional sale prices or discounts immediately to the Commonwealth during the term of the contract. Such notice shall also advise the duration of the specific sale or discount price.
- Q. LABELING OF HAZARDOUS SUBSTANCES: If the items or products requested by this solicitation are "Hazardous Substances" as defined by § 1261 of Title 15 of the United States Code (U.S.C.) or "Pesticides" as defined in § 136 of Title 7 of the United States Code, then the Offeror, by submitting his/her proposal, certifies and warrants that the items or products to be delivered under this contract shall be properly labeled as required by the foregoing sections and that by delivering the items or products the offeror does not violate any of the prohibitions of Title 15 U.S.C. § 1263 or Title 7 U.S.C. § 136.

- R. MAINTENANCE MANUALS: The contractor shall provide with each piece of equipment an operations and maintenance manual with wiring diagrams, parts list, and a copy of all warranties.
- S. MATERIAL SAFETY DATA SHEETS: Material Safety Data Sheets and descriptive literature shall be provided for each chemical and/or compound ordered.
- T. NEW EQUIPMENT: Unless otherwise expressly stated in this solicitation, any equipment furnished under the contract shall be new, unused equipment. Refurbished equipment is not considered new.
- U. OPERATIONAL COMPONENTS: Unless otherwise requested in the solicitation, stated equipment prices shall include all cables, connectors, interfaces, documentation for all components, and any other items necessary for full systems operation at the user site. This does not include consumable supplies such as paper, tapes, disks, etc., unless such supplies are expressly identified in the pricing schedule.
- V. PRODUCT SUBSTITUTION: During the term of any contract resulting from this solicitation, the vendor is not authorized to substitute any item for that product and/or software identified in the solicitation without the prior written consent of the contracting officer whose name appears on the front of this solicitation, or their designee.
- W. QUALIFIED REPAIR PERSONNEL: All warranty or maintenance services to be performed under resulting contract shall be performed by qualified technicians properly authorized by the manufacturer to perform such services. The Commonwealth reserves the right to require proof of certification at any time during the term of the contract.
- X. REPAIR PARTS: In the event that the performance of maintenance services under the contract results in a need to replace defective parts, such items may only be replaced by new parts. In no instance shall the contractor be permitted to replace defective items with refurbished, remanufactured, or surplus items without prior written authorization of the Commonwealth.
- Y. WARRANTY (COMMERCIAL): The contractor agrees that the goods or services furnished under any award resulting from this solicitation shall be covered by the most favorable commercial warranties the contractor gives any customer for such goods or services and that the rights and remedies provided therein are in addition to and do not limit those available to the Commonwealth by any other clause of this solicitation.
- Z. RENEWAL OF MAINTENANCE: Maintenance of the equipment specified in the resultant contract may be renewed by the mutual written agreement of both parties for additional one-year periods, under the terms and conditions of the original contract except as noted herein. Price changes may be negotiated at time of renewal; however, in no case shall the maintenance costs for a succeeding one-year period exceed the prior year's contract price(s), increased or decreased by more than the percentage increase or decrease in the other services category of the CPI-W section of the US Bureau of Labor Statistics Consumer Price Index, for the latest twelve months for which statistics are available.
- AA. WORK SITE DAMAGES: Any damage to existing utilities, equipment or finished surfaces resulting from the performance of this contract shall be repaired to the Commonwealth's satisfaction at the contractor's expense.
- BB. ELECTRICAL EQUIPMENT STANDARDS: All equipment/material shall conform to the latest issue of all applicable standards as established by National Electrical Manufacturer's Association (NEMA), American National Standards Institute (ANSI), and Occupational Safety & Health Administration (OSHA). All equipment and material, for which there are OSHA standards, shall bear an appropriate label from a Nationally Recognized Testing Laboratory (NRTL).

- CC. DELIVERY AND STORAGE (If installation is required): It shall be the responsibility of the contractor to make all arrangements for delivery, unloading, receiving and storing materials in the building during installation. The owner will not assume any responsibility for receiving these shipments. Contractor shall check with the owner and make necessary arrangements for security and storage space in the building during installation.
- DD. INSTALLATION (If applicable): All items must be assembled and set in place, ready for use. All crating and other debris must be removed from the premises.

IX. METHOD OF PAYMENT

The contractor will be paid on the basis of invoices submitted in accordance with the solicitation and any negotiations. James Madison University recognizes the importance of expediting the payment process for our vendors and suppliers. We are asking our vendors and suppliers to enroll in the Wells Fargo Bank single use Commercial Card Number process or electronic deposit (ACH) to your bank account so that future payments are made electronically. Contractors signed up for the Wells Fargo Bank single use Commercial Card Number process will receive the benefit of being paid in Net 15 days. Additional information is available online at: http://www.jmu.edu/acctgserv/expenditures/vendor_pay_methods.shtml

X. PRICING SCHEDULE - See Section 7

The offeror shall provide pricing for all proposed scientific equipment, supplies, chemicals, biologicals, laboratory equipment, related items, and services. The pricing schedule should include percentage off list price for specific manufacturer/product lines or percentage discount off catalog. The following sample is to be used:

| Category/Item | Manufacturer | Discount Off List Price |
|---------------|--------------|-------------------------|
| | | |
| | | |
| | | |

The resulting contract will be cooperative and pricing shall be inclusive for the attached Zone Map, of which JMU falls within Zone 101.

If yes, certification number: _____ Certification date: _____

Is your firm a **Micro Business** certified by the Department of Small Business and Supplier Diversity (DSBSD)? Yes X No

If yes, certification number: 708040

Certification date: February 2014

Instructions: *Populate the table below to show your firm's plans for utilization of small, women-owned and minority-owned business enterprises in the performance of the contract. Describe plans to utilize SWAMs businesses as part of joint ventures, partnerships, subcontractors, suppliers, etc.*

Small Business: "Small business" means a business, independently owned or operated by one or more persons who are citizens of the United States or non-citizens who are in full compliance with United States immigration law, which, together with affiliates, has 250 or fewer employees, or average annual gross receipts of \$10 million or less averaged over the previous three years.

Woman-Owned Business Enterprise: A business concern which is at least 51 percent owned by one or more women who are U.S. citizens or legal resident aliens, or in the case of a corporation, partnership or limited liability company or other entity, at least 51 percent of the equity ownership interest in which is owned by one or more women, and whose management and daily business operations are controlled by one or more of such individuals. **For purposes of the SWAM Program, all certified women-owned businesses are also a small business enterprise.**

Minority-Owned Business Enterprise: A business concern which is at least 51 percent owned by one or more minorities or in the case of a corporation, partnership or limited liability company or other entity, at least 51 percent of the equity ownership interest in which is owned by one or more minorities and whose management and daily business operations are controlled by one or more of such individuals. **For purposes of the SWAM Program, all certified minority-owned businesses are also a small business enterprise.**

Micro Business is a certified Small Business under the SWaM Program and has no more than twenty-five (25) employees AND no more than \$3 million in average annual revenue over the three-year period prior to their certification.

All small, women, and minority owned businesses must be certified by the Commonwealth of Virginia Department of Small Business and Supplier Diversity (DSBSD) to be counted in the SWAM program. Certification applications are available through DSBSD at 800-223-0671 in Virginia, 804-786-6585 outside Virginia, or online at <http://www.sbsd.virginia.gov/> (Customer Service).

Company Description: Our staff has over 150+ years combined experience serving the government and commercial healthcare industry. Many of our staff members were previously employed by Infolab, Inc., a company founded in 1967 that served the clinical laboratory with amazing service. We are blessed and honored to have worked for such a wonderful company that gave us lifelong friendships with fellow employees, customers and manufacturers.

Manufacturers of clinical laboratory equipment and supplies have partnered with Dove to provide the knowledge, experience and superior products that every healthcare facility deserves. We thank both our customers and manufacturer partners who have assisted us do our part to put the care back in **healthCARE!**

What sets Dove apart from other distributors? Our focus is clinical laboratory products. Many of our staff members were employed by Infolab, Inc. prior to the Infolab/PSS acquisition by McKesson. We have a combined 150 years serving the healthcare industry. Laboratory products are a vital part of the healthcare industry and require knowledge and good business practices.

Our entire focus is in one thing, **SERVING** our customers. “The customer is always right!” is still how we do business. It’s about time someone stood up and put the care back in healthcare...Dove is doing just that and we will not compromise in any way.

**Healthcare in our great Nation started with one person caring for another.
It’s time we partner together and put the care back in Healthcare.
Our customers made the choice to serve in the healthcare industry.
Customers deserve no less than quality products and superior service!**

Meet the Dove State of Virginia Leadership Team...

Tammy D. Bridges - President CEO

Tammy began her career in healthcare in 1985 with Infolab, Inc. and remained there until the integration of Infolab/PSS into McKesson. As the Infolab Director of Government Contracts and Corporate Accounts she has extensive knowledge of providing clinical and research laboratory products to this customer base as well as contract management, sales strategies, customer relationship management, proposal preparation, field sales support, key account management, sales, marketing, vendor relationships and clinical solutions management.

TammyBridges@DoveMedicalSupply.com

Penny Winfree - Director of Government Sales

Penny has been recognized as a distinguished leader in the hospitality industry for over 16 years and healthcare industry for 4 years. Her experience includes: creating new customer relationships, customer retention, customer satisfaction programs, sales team leadership and much more. Penny works with our government customers to assist them with procurement of laboratory and medical products while meeting mandatory socio-economic goaling.

PennyWinfree@DoveMedicalSupply.com

Tonya Hinshaw, MLT – Director of Laboratory Sales

Tonya joined the Dove team with over 30 years' experience as Medical Laboratory Technician. Tonya received her Associate of Science, Medical Laboratory Technician Degree from Elon College. She has worked in the moderately and highly complex laboratory setting. Tonya's responsibility includes managing our commercial sales team and growing our presence in these facilities. She loves nothing more than put her feet on the street to assist our sales team.

Current Schedule Variance (%):

Assessing Official Comments:

QUALITY: The contract requires the vendor to supply commercial medical laboratory items in the catalogs they offer to Laboratory ECAT Program. The vendor offers thousands of items to customers located in the Contiguous United States (CONUS), Outside Contiguous United States (OCONUS), Alaska, Hawaii and Puerto Rico. The vendor offers various routine, specialty and equipment items in accordance with the scope of the contract. The contractor meets the requirements for providing commercial items. No quality problems were reported during the performance period.

SCHEDULE: The contract requires Dove to deliver routine items within 72 hours of order placement, specialty items within 15 days of order confirmation, emergency orders within 24 hours of receipt of order, and equipment items within 30 or 45 days after order confirmation to customers located throughout the Contiguous United States (CONUS) and Puerto Rico. For customers located Outside Contiguous United States (OCONUS), the vendor has the same delivery requirements as CONUS, however, the vendor's delivery requirement is to their own distribution dock, which must be located in the United States. The vendor is to package and offer all orders for transportation by a Government-supplied carrier. The vendor is to complete all necessary documentation/paperwork prior to contacting the Government-supplied carrier for pick-up of orders. The vendor's evaluated catalog pricing is inclusive of overseas packaging costs, handling costs or any additional fees. The pricing must be devoid of transportation costs. For customers located in Alaska/Hawaii delivery is the same as CONUS for equipment type items, however delivery is within 6 days for routine orders and 20 days for specialty items.

MANAGEMENT: Dove continues to be very customer oriented toward all customers utilizing the Laboratory ECAT contracts, regardless of customer location. The vendor offers a wide range of products to all customers, CONUS, OCONUS, Alaska, Hawaii and Puerto Rico. The vendor continually adds products to their catalog offering. The vendor keeps their catalogs well maintained by removing products that are no longer available in a timely fashion so that customers are not frustrated trying to order discontinued items. The interaction between the Government and the contractor is satisfactory and does not require improvement. The vendor initiates conferences and conference calls in an effort to access their level of service on this contract. Dove is always available to DLA Troop Support and any customer in support of this contract

UTILIZATION OF SMALL BUSINESS: Dove is a Small Business.

REGULATORY COMPLIANCE: Dove maintains compliance with all applicable laws and regulations.

RECOMMENDATION:

Given what I know today about the contractor's ability to perform in accordance with this contract or order's most significant requirements, I would recommend them for similar requirements in the future.

FOR OFFICIAL USE ONLY

FOR OFFICIAL USE ONLY / SOURCE SELECTION INFORMATION - SEE FAR 2.101, 3.104, AND 42.1503

Contractor Comments:

QUALITY: Dove makes every possible effort to provide exceptional service to all government entities. If we were able to grade the ECAT team the grade would be Exceptional. The ECAT team is quick to respond with accurately information.

MANAGEMENT: Dove's culture and mission is to serve our military partners just as they faithfully serve our country. We strive to be proactive and not reactive.

UTILIZATION OF SMALL BUSINESS: In addition to being a small business we are also a minority (woman owned) business.

ADDITIONAL/OTHER: The ECAT program is extremely beneficial to our troops by making procurement a simple process.

What makes the ECAT program such a productive tool is the ECAT team members. They ALL are so very helpful and are clearly result driven. Dove truly appreciates the ECAT team. What I find so refreshing is the quick response time. Whether we communicate by phone or email, we ALWAYS get a quick and accurate response. If an ECAT team member doesn't have a solution or answer to a question they find it. In other words, they don't pass the issue to someone else, they take care of it.

DOVE is so appreciative of the dedication of the ECAT team.

CONCURRENCE: I concur with this evaluation.

Experience and Capabilities

Experienced Leadership...

Dove Medical Supply LLC (Dove Medical) was formed in July of 2013 as a result of Corporate America purchasing Infolab, Inc. The decision was made to integrate Infolab into a much larger company and close all the Infolab distribution centers. This eliminated the employment of hundreds of people. Infolab was an ethical, service first company who was extremely well known in the laboratory community.

After careful planning and hard work, Dove Medical was formed. Our team consists of many prior Infolab leaders and employees. We built a company from the ground up utilizing sound business principals and partnering with manufacturers who are industry leaders. We refuse to compromise when it comes to partnering with our customers. Our careers had been spent doing business the old fashioned way and these philosophies are how we do business every day with every customer.

- 1) Always doing what is ethical.
- 2) Doing whatever it takes to make each and every customer happy.
- 3) Partnering with industry leading manufacturers.
- 4) Offering solutions to customers that assist them to offer better patient care while increasing revenue.
- 5) Responding in a timely manner.
- 6) Creating true partnerships with customers.
- 7) Being a resource for customers.

The Commonwealth of Virginia University System deserves Dove Medical and we are devoted to serving you!

Best Customer Service in the Industry

Our team collectively has more than 100 years of experience serving hospitals, POL's, reference labs, schools, universities and government facilities. We will do whatever it takes to provide you the products and services you need at a competitive price.

Dove Medical Supply – Experience/Capabilities– Attachment 3

Most distributors of laboratory equipment, chemicals and supplies utilize other distributors to procure these products as they are not direct distributors of the products they offer. This results in higher pricing and lower service levels as these distributors do not work directly with the manufacturers.

Why is purchasing from an authorized distributor of products important?

- Only one price mark-up
- Faster service as orders are placed direct and not through a third party
- Immediate access to important product information such as delivery and installation planning, material safety data sheets, product recalls, parts (for equipment) and any product bulletins/information the manufacturer announces

DOVE doesn't just "sell" products. We partner with our manufacturers and create valuable relationships to assist us in serving the medical community. DOVE acts as an advocate for each and every customer. We do the work so you don't have to.

Our mission and culture is to serve every single customer need. It is our role to adjust to what the customer needs, not the other way around. Over the past 15 years customer service in our industry has changed and not in a good way. Large companies have more work than ever with fewer employees. This has negatively impacted the healthcare industry as good service is hard to find. Customers are more than a number attached to gross profit dollars.

Each and every healthcare provider; purchasing agents, nurses, laboratory technicians, physicians, medical technologists, educators, etc., made a choice to serve in the healthcare industry. As procurement partners to these individuals, it is our duty and responsibility to serve them just as they faithfully serve us.

How do we do this? By putting YOUR needs first in ALL we do, not some of the time...all of the time!

It's not about profitability, it's about accountability! Customers in this industry are healthcare professionals whom have chosen a career serving.

COST SAVINGS PROGRAM the COMMONWEALTH OF VIRGINIA

1. **OBTAIN** current inventory list from participating COV entities to populate a COV master product file. Twelve month history is preferable for accurate history.
Note: This list will be shared with the COV Contracting Officer for this contract.

2. **PREPARE** detailed product listings by category.

Category examples: Chemicals, Gloves, Glassware, Diagnostic Testing, Centrifuges, Microscopes, Hematology, Chemistry, Immunoassay, Blood Banking, Labware, Scientific Equipment, Testing Meters, etc.

3. **PROVIDE** category product listing to various manufacturers who provide products for the specific categories and ask for best pricing via a contract and to hold pricing firm for one year.

4. **STANDARDIZE** product usage to available contracts where possible.

Managing this specific contract would be very similar to managing a Group Purchasing Contract. This GPO would be simply...The Commonwealth of Virginia. Dove Medical Supply Staff has the necessary tools to easily manage contract management of this program.

STATEMENT OF NEEDS SOLUTIONS

1. A) Service

The leadership team of Dove Medical has been serving the Commonwealth of Virginia since as early as 1985. We feel we know the needs of the Commonwealth very well because we have worked personally with many of the facilities.

Dove Medical Supply – Experience/Capabilites– Attachment 3

THE BIG PROBLEM FACING COV FACILITES.....

LACK OF SERVICE! When Dove Medical became a Micro SWAM vendor we began reaching out to COV laboratory facilities to analyze how we could help their facilities. We quickly discovered that there was an immediate need for service.

- Services such as:
- 1) Assistance locating products such as reagents, bulbs or cuvettes for specific analyzers
 - 2) MSDS location and acquisition
 - 3) Receiving a product(s) next day
 - 4) Notification of product announcements that can assist with product savings, product use, better results and more

To sum it up, we found customers needed immediate response and results. Dove Medical does just that because we believe in doing business the old fashioned way. Automation is good to a point; however, it is VITAL that these customers are served, at least in part, by a knowledgeable team who stays abreast of both current and existing technology to assist customers. In many instance, hands on training is needed on every products. Dove Medical will deliver service as needed to the COV.

The entire Dove Medical staff receives product training from our manufacturers on a routine basis. In addition, we make it our role and responsibility to maintain manufacturer representatives contact information so we can quickly contact the correct individuals to assist serve our customers.

It's all about partnerships and teamwork!

References

Federal Government

DOVE as just-in-time supplier for the federal government for laboratory equipment and supplies. We have a 5 year contract with DLA for these products.

Commonwealth of Virginia

DOVE currently has a 5 year term contract with the State of Virginia for Laboratory Equipment and Supplies, contract number E194-73039-MA1974

Dove Medical Supply – Experience/Capabilities– Attachment 3-A

Technical Service Support

Dove Medical agrees to the COV UNIVERSITY SYTEMS technical service policy. Exception: Dove Medical will accept credit and provide full credit for equipment based on the manufacturer's decision regarding such return and credit. Dove Medical supply will act as an advocate for the customer in all instances.

Sustainability

Dove Medical will work diligently with manufacturers to ensure all environmental concerns and compliances are met. As the manufacturer is responsible for the laws and regulations regarding their specific products, Dove Medical will act as an advocate for the customer and communicate with product manufacturers to ensure the customer is satisfied and all efforts have been made to address environmental concerns.

Training

Dove Medical will coordinate with manufacturers on the installation and training for all equipment sold. We will also make sure that each customer is aware of contact information for service.

In some instances manufacturers offer offsite training for one or more facility employees. Dove Medical will coordinate and facilitate such training.

Test Samples

Dove Medical will coordinate test samples with each manufacturer according to COV UNIVERSITY SYTEMS need. We will work with each facility on an individual basis to accommodate such samples. In some instances it may take up to 5 days for large product samples where correlation studies are required (ex: microbiology/phlebotomy).

In addition and most importantly, COV UNIVERSITY SYTEMS facilities will be educated and trained by Dove Medical and the specific manufacturer representatives.

Over
75
Years
of Experience serving the healthcare industry!

- No hoops to jump through
- Honest and ethical service
- Rapid response time
- SERVICE** you deserve

The employees of Dove Medical Supply LLC have a true passion for serving customers. We work directly with the laboratory personnel to determine what products they currently use while also being a resource for new product technology. Additional services we provide to laboratory customers that helps save them time and money:

- Lot number research
- Expiration date research
- Locating hard to find products
- Finding unique products
- Set-Aside Inventory
- No charge product evaluations
- Small unit of measures when requested
- Methodology assistance
- Vendor relationship building
- Surpassing expectations
- Just- In-Time Delivery
- Quick response time (24/7)

We are committed to providing the absolute best service in the industry. From being a resource for laboratory customers to providing solutions for problems they may face, our goal is to be a partner COV UNIVERSITY SYTEMS facilities can count on.

Assessing Official Comments:

QUALITY: The contract requires the vendor to supply commercial medical laboratory items in the catalogs they offer to Laboratory ECAT Program. The vendor offers thousands of items to customers located in the Contiguous United States (CONUS), Outside Contiguous United States (OCONUS), Alaska, Hawaii and Puerto Rico. The vendor offers various routine, specialty and equipment items in accordance with the scope of the contract. The contractor meets the requirements for providing commercial items. No quality problems were reported during the performance period.

SCHEDULE: The contract requires Dove to deliver routine items within 72 hours of order placement, specialty items within 15 days of order confirmation, emergency orders within 24 hours of receipt of order, and equipment items within 30 or 45 days after order confirmation to customers located throughout the Contiguous United States (CONUS) and Puerto Rico. For customers located Outside Contiguous United States (OCONUS), the vendor has the same delivery requirements as CONUS, however, the vendor's delivery requirement is to their own distribution dock, which must be located in the United States. The vendor is to package and offer all orders for transportation by a Government-supplied carrier. The vendor is to complete all necessary documentation/paperwork prior to contacting the Government-supplied carrier for pick-up of orders. The vendor's evaluated catalog pricing is inclusive of overseas packaging costs, handling costs or any additional fees. The pricing must be devoid of transportation costs. For customers located in Alaska/Hawaii delivery is the same as CONUS for equipment type items, however delivery is within 6 days for routine orders and 20 days for specialty items.

MANAGEMENT: Dove continues to be very customer oriented toward all customers utilizing the Laboratory ECAT contracts, regardless of customer location. The vendor offers a wide range of products to all customers, CONUS, OCONUS, Alaska, Hawaii and Puerto Rico. The vendor continually adds products to their catalog offering. The vendor keeps their catalogs well maintained by removing products that are no longer available in a timely fashion so that customers are not frustrated trying to order discontinued items. The interaction between the Government and the contractor is satisfactory and does not require improvement. The vendor initiates conferences and conference calls in an effort to access their level of service on this contract. Dove is always available to DLA Troop Support and any customer in support of this contract

UTILIZATION OF SMALL BUSINESS: Dove is a Small Business.

REGULATORY COMPLIANCE: Dove maintains compliance with all applicable laws and regulations.

RECOMMENDATION:

Given what I know today about the contractor's ability to perform in accordance with this contract or order's most significant requirements, I would recommend them for similar requirements in the future.

Contractor Comments:

QUALITY: Dove makes every possible effort to provide exceptional service to all government entities. If we were able to grade the ECAT team the grade would be Exceptional. The ECAT team is quick to respond with accurately information.

MANAGEMENT: Dove's culture and mission is to serve our military partners just as they faithfully serve our country. We strive to be proactive and not reactive.

UTILIZATION OF SMALL BUSINESS: In addition to being a small business we are also a minority (woman owned) business.

ADDITIONAL/OTHER: The ECAT program is extremely beneficial to our troops by making procurement a simple process.

What makes the ECAT program such a productive tool is the ECAT team members. They ALL are so very helpful and are clearly result driven. Dove truly appreciates the ECAT team. What I find so refreshing is the quick response time. Whether we communicate by phone or email, we ALWAYS get a quick and accurate response. If an ECAT team member doesn't have a solution or answer to a question they find it. In other words, they don't pass the issue to someone else, they take care of it.

DOVE is so appreciative of the dedication of the ECAT team.

CONCURRENCE: I concur with this evaluation.

Quotations

DOVE welcomes the opportunity to quote all your product needs.

How to get a quote? www.DoveMedicalSupply.com

The screenshot shows the 'Request Quote' page on the Dove Medical Supply website. The browser address bar displays 'http://www.dovemedicalsupply.com/RequestQuote.aspx'. The page header includes the Dove Medical Supply LLC logo, phone number 336.643.9367, and the slogan 'Devoted to serving you!'. Navigation links include Home, Shopping, Dove Revolution, Dove Deals, Request Quote, and About Us. A search bar is located below the navigation. The main content area is titled 'Request Quote' and contains a form with the following fields: *Name, *Address Line 1, Address Line 2, *City, *State, *Zip Code, *Phone Number, Fax Number, and *Email Address. Below the form is a text area for providing additional information. At the bottom of the form, there is a 'Browse...' button for uploading price lists. The left sidebar contains sections for 'New to Dove? Register Here', 'Existing Customer Sign In', 'Browse by Category' (listing Clinical Laboratory, Research Laboratory, Medical, Surgical, Commercial, Glove, Safety, and Better Your Health), and 'Helpful Links' (including Request Quote, Catalog/Literature Request, Help Finding a Product, Special Offers, Government Customers, Helpful Videos, Contact Us, and Refurbished Equipment).

You may upload your documents directly to Dove! You can also get a quote by telephone, fax, email: [COV @DoveMedicalSupply.com](mailto:COV@DoveMedicalSupply.com) or through your DOVE representative.

Note: All facilities that are associated with this contract will have minimum discounts associated with their account.

Dove Medical Supply – Supply Chain – Attachment 6

Dove is an authorized distributor for over 500 manufacturers. Through our partnerships with many large distributors, we have access to virtually every product for any laboratory application.

A few of our large distribution partners are: **Fisher Scientific, VWR, Medline, Thomas Scientific.** As Dove is a small minority business we assist the companies with their small business subcontracting goals.

Pricing and Discount Structure

DOVE currently is a contract holder for the State of Virginia.

Contract Number: **E194-73039-MA1974** Laboratory Equipment and Supplies

eVA Account Number: VS0000117063

DOVE wishes to extend the same discount structure on our current EVA contract for Laboratory Equipment and Supplies. This will also avoid any confusion as to which contract pricing to utilize as all will be the same.

| Minimum discount structure for the Commonwealth of Virginia | | |
|--|-----|---|
| Analyzers and Equipment | 20% | <ul style="list-style-type: none">- Manufacturer Contracts will supersede standard discounts- In the event DOVE quotes a price lower than the minimum discount to a COV customer, ALL COV customers will have access to the lower price.- In order to insure pricing proficiency, DOVE will attach all customers to a single pricing file so that pricing is standardized for all COV facilities. |
| Chemicals and Reagents | 15% | |
| Supplies | 20% | |
| Furniture | 20% | |
| Labware | 15% | |
| Glassware | 15% | |
| Reagents/Controls/Calibrators | 20% | |
| All other products | 20% | |

Dove Medical will hold all pricing firm until manufacturer price increase. Typically, manufacturers increase pricing at the end of each calendar year. We will proactively notify customers of any price increase upon notification from the manufacturer.

Manufacturer contracts will have a specific expiration date and renewal conditions as well as reporting requirements. Dove Medical will coordinate such contracts with the manufacturers and promptly notify customers of any price or product changes.

Our primary goal is to assist COV facilities lower cost while providing each one with exceptional service. We will do this by working with manufacturers individually to accomplish this goal. From obtaining contracts for products specifically for the COV to finding ways to reduce cost on new technology our goal is to reduce cost. This isn't just a statement...it is a promise and a commitment from each DOVE.

Order Placement

Dove Medical has access to hundreds of manufacturers through our individual partnerships as well as the support from our large distribution partners. In the event that Dove Medical does not have a requested item in stock, our distribution partners will drop ship for us at no additional cost. COV customer can ORDER ANY DAY OF THE WEEK for same day order processing. Most COV facilities are in our next day shipping zone.

Our goal is to assist the COV to standardize commonly used products and work with manufacturers for contract support. This will not only drive down costs but it will also insure stocking of the products.

All products ordered by COV facilities will receive the stated minimum discounts. Dove will always work with the manufacturers for better pricing which will result in better “Net” pricing.

HOW TO PLACE AN ORDER

E-Procurement

Dove Medical is currently registered with eVA and utilizing the punch-out catalog system. This method of electronic procurement is the preferred method of order placement. Our complete catalog for this contract will be uploaded to EVA within 14 days after contract award notification. In the event a product is not listed in our punch-out catalog, Dove will upload such products to our punch-out catalog within 48 hours and notify the customer the product(s) have been added.

Website www.DoveMedicalSupply.com (user name and password required)

Telephone 336-643-9367

Fax 336-419-0160

E-Mail COV@DoveMedicalSupply.com

Sales Rep Dove sales representatives are authorized to accept customer orders provided the customer provides a purchase order number.

Dove will provide a minimum of two dedicated customer service and two field representatives to service this contract.

Dove Medical Supply – Ordering Processing – Attachment 8

In the event a product is on manufacturer back order or has been discontinued, Dove will make every effort to find product substitutions. Product substitutions will only be made with approval from the ordering facility.

Orders are processed the same day if placed prior to 3pm.

Orders will be shipped the same day if placed before 3pm provided the end user has provided DOVE with estimated usages. Dove will stock a three month supply of products routinely ordered for COV facilities. Our sales and customer service representatives will work with each facility to populate a list of routinely ordered products.

HOT LIST

Dove will create a HOT LIST of the top products utilized by COV facilities. The COV HOTLIST will consist of all products that 1) have a high usage 2) used by all facilities 3) are on a manufacturer contract 4) mandated to be utilized by the COV.

Dove will make the COV HOTLIST available to all COV facilities utilizing this contract. The HOTLIST will be available on our COV web portal as well as emailed to each facility utilizing this contract. The HOTLIST will be updated on a bi-weekly basis or as needed basis.

Orders may be placed 24/7 via EVA and the Dove website and/or 8am to 5:00pm Monday through Friday excluding national holidays. However, Dove will provide emergency contact information for COV facilities for 24/7 service.

Shipment of Orders

All orders received by DOVE are processed the same day if received prior to 4pm. DOVE has implemented a state-of-the art order infrastructure via a Medical Master Distribution System (MDS) program designed by The Systems House.

Master Distribution System (MDS)

Our MDS provides solid control over the day-to-day operation of our business with instant access to the information needed to make the timely, well-informed decisions that mean getting your products to you on time.

- Guaranteed Invoice Accuracy
- High Fill Rates
- Just-In-Time Delivery
- Paperless Invoice Options
- Lot and Serial Number Tracking
- Immediate Back-order Notifications
- Expiration Date Management
- Small Unit of Measures Available

ORDER PROCESSING FLOW CHART

Delivery Options and Charges

Minimum Order Amount for FOB Destination is \$100.00.

All products ordered shall be shipped by DOVE or drop shipped by the applicable manufacturer or other DOVE using our authorized carrier or a carrier authorized by the applicable manufacturer or DOVE (the "Designated Shipper") and delivered to end user designated delivery location, FOB Destination*. DOVE and its manufacturing partners cannot ship to post office boxes.

Delivery subject to product availability. Although DOVE has attempted to ensure that the inventory availability of Products is properly designated on the Web site for many Products, COV Facility acknowledges that from time-to-time even those Products designated as in inventory will not be available at time of shipment. If an Order cannot be shipped in its entirety by the close of business the day following placement of the Order, DOVE will promptly notify the end user, and provide an estimated shipment date for those items which are unavailable. DOVE reserves the right to substitute alternate products with equivalent specifications for those ordered **with the end users approval**.

Dove further reserves the right to make delivery in installments for those items of an order, which are available for immediate shipment, and to bill COV Facility separately for any such items delivered unless the facility specifies orders or lines must be shipped completed. COV Facility may cancel those items on the Order that are subject to the delay by notice to DOVE within 48 hours of receipt of the delay notification, provided that such Products have not yet been shipped. If DOVE receives no such notice of cancellation, the estimated product availability and shipment date will be deemed accepted. The foregoing sets forth DOVE's entire obligation with regard to Product availability and shipment delays. DOVE shall not be liable for any late shipment or any failure to ship any Product(s).

*Products excluded from FOB Destination:

-Expedited Delivery Requests

Delivery request by a customer other than standard (Next Day Air for example) will be charged actual freight and any other charges incurred by the manufacturer. These charges will be prepaid and added to invoices.

Cont.,

Dove Medical Supply – Delivery Options – Attachment 8-A

-Heavy Bulk Freight Products

Liquids other than one gallon are considered heavy freight by most carriers. Carriers also consider freight “bulk” if packaging falls into the carriers bulk dimensions category. These actual charges will be prepaid and added to invoices.

Dove will work with manufacturers to drop such heavy and bulk freight items at no additional cost. However, we can make no guarantees and this will be handled on a case by case basis.

-Manufacturer Drop Ship Items

Many manufacturers require their products be drop shipped. Examples are: products with short expiration dates, cold chain products, products that are considered “pharma, hazardous biological products, live specimens.

-Hazardous Shipping Fees

Products considered Hazardous by the Department of Transportation will incur a hazardous shipping charge by the carrier. Dove will prepay and add this actual charge to the invoice.

-Dry Ice Charges

Dove will impose a \$7.00 package for products requiring dry ice.

It is not only one person's work; it's really a partnership and collaboration during all these years.

MASTER DISTRIBUTION SYSTEM

**Comprehensive
business
management
solution
for the Medical
Distribution
Industry**

Comprehensive distribution systems are not built overnight, or for that matter, even over a couple of years. Master Distribution System from TSH, has been in continual development since 1979. As a result, MDS stands apart from the many other software systems available today.

While some systems boast of being written with fourth generation development tools, they have not been around long enough to have developed the scope and depth so crucial to the complex world of distribution. Others claim to be feature rich, but lack the aesthetics and ease of use inherent in today's modern software systems.

A TOTAL SYSTEM DEVELOPED BY DISTRIBUTION SYSTEM EXPERTS

m ds
MASTER DISTRIBUTION SYSTEM

MDS, a fully integrated business control program, provides complete, ready-to-work solutions uniquely suited to address the problems of Healthcare distribution businesses. MDS provides a remarkably powerful tool that gives you solid control over the day-to-day operation of your business, with instant access to the information you need to plan for the future, and make the timely, well-informed decisions that mean growth and profitability for your company.

Designed by Healthcare distribution professionals and systems experts, MDS has the unique distinction of being both robust and stable, yet flexible and modern in appearance. MDS was built from the ground up with portability in mind, well before open systems was even a glimmer of a buzzword in the public consciousness.

This foresight is apparent in MDS' commitment to UNIX and Windows NT, to the relational database model, and to Microsoft Windows technology. Utilizing TSH's Application Master development tools, users can run MDS under Microsoft Windows from a PC on a LAN, or via "dumb" terminals in any mix. And, because experience has taught us that some users prefer traditional keyed entry, all MDS programs offer the capability of dual entry via mouse or traditional line/character entry. MDS has been installed on small PC servers supporting a handful of users, as well as on large scale multiprocessor systems with hundreds of users on-line simultaneously.

A COMPLETE HEALTHCARE & SURGICAL SUPPLY SYSTEM DESIGNED BY HEALTHCARE INDUSTRY PROFESSIONALS AND DEVELOPED BY DISTRIBUTION SYSTEM EXPERTS

MDS incorporates many features unique to the Medical Distribution Industry, and not typically found in general distribution products. These Medical Supply specific features reflect the breadth and maturity of the MDS product, and have made MDS the system of choice for many leading Healthcare distribution companies throughout the United States.

REAL-TIME REBATE CALCULATION AND TRACKING:

Sophisticated on-line Contract/Rebate Management with options that include: On-line

calculation of gross/net price, cost, and rebate on each line item at time of order. Multiple price catalogs may be stored. Ability to re-calculate rebates on processed invoices should a new contract be input after the order was entered.

EDI TO ANSI X.12 STANDARD:

Integrated EDI for secure electronic orders including full adherence to ANSI X.12 standards, and implementation of all X.12 documents.

EASE OF USE:

To insure its ease of use, the system uses a **Windows based, function key and menu approach**, and has **extensive prompts** to guide the operator through data entry. **On-line help**, full audit trails, and extensive inquiry capabilities are built into every module. Word Processing style editing is the system standard.

MARKETING AND SALES ANALYSIS:

On-Line history of physician or hospital purchases with ability to generate an order from a previous customer order, or via the use of order templates.

BAR CODE CAPABILITIES:

Full Bar Code Capability is implemented throughout the system.

INVENTORY MANAGEMENT:

The Inventory Management module includes **flexible product line buying logic** coupled with sophisticated **Multi-Branch roll up and Replenishment**, leading to the Automatic Generation of Purchase Orders and Transfer Orders.

FDA RECALL:

Tracking information to support **FDA recall requirements** is incorporated into MDS.

WAREHOUSE MANAGEMENT:

Complete **multi-warehouse support** is inherent in MDS, with the further ability to **trans-ship product** from multiple warehouses as necessary.

Random locator systems may be implemented on a warehouse basis. The system supports multiple picking methodologies including order and/or batch and zone picking. The system provides the ability to **pick by expiration date**, and **supports full lot and serial number tracking**, leading to a warranty recording capability.

SHIPPING SYSTEM INTERFACE:

MDS provides a fully integrated interface to the **Clippership parcel shipping system**. Clippership supports **multiple freight carriers** and provides **online freight charge calculations and tracking information** which is then updated to MDS.

INTEGRATED FAX/E-MAIL CAPABILITY:

MDS features integrated E-mail and messaging capabilities as well as the **option to fax Purchase Orders, Invoices, Return Authorizations and system reports**.

REMOTE NET B2B E-COMMERCE WEB-BASED CUSTOMER INFORMATION SYSTEM:

RemoteNet provides your customers and salesmen with secure remote access from any internet connection. RemoteNet's streamlined order entry process includes

customer based **Order Templates**, Multiple Shiptos, **Customer Specific Pricing, Contract Pricing** and the ability to browse **Product Catalogs**. **Suggested Order Quantities and Monthly Usage Calculations** are automatically presented during order entry.

Real-time inquiries include, **Sales History**, Inventory and **Stock Status and Accounts Receivable**. Customers may view detailed product information (including MSDS, if available), track orders and review specific shipment information online.

THE MDS MODULES - COMPREHENSIVE AND FULLY INTEGRATED

Designed to operate in a multi-company, multi-warehouse environment, MDS is a comprehensive software solution encompassing virtually every phase of business activity from Order Entry through General Ledger reporting. The MDS modules operate as part of an integrated system that shares information from one function to another. With an integrated system, you need enter any item of input only once, and it is automatically available to any other part of the system.

"We needed a company (that was) sophisticated and experienced enough to develop, implement and support a system suited to our unique business demands.

TSH fulfilled this need well beyond our expectations and still continues to satisfy our changing needs today."

**Doug Mack
Executive Vice President,
Total Health Products
a division of Medsite**

MDS, FLEXIBILITY AND FUNCTIONALITY

MDS's unique object oriented approach, coupled with TSH's selection of advanced relational data base models, provides the software the stability typically associated with proprietary systems, along with the flexibility and portability of open systems products. MDS can be custom configured to meet the most unique demands of your operation, and as your business grows, MDS grows with you. Modifications to the system can be made quickly and economically.

MDS INCLUDES THE FOLLOWING MODULES:

**Order Entry/Invoicing
EDI - to the X.12 standard
Telemarketing**

**On-Line Rebate Tracking
(Physician) Order Templates
Return Authorizations**

**Lot Inventory Control with
Expiration Date Management**

Warranty Processing

Consignment Inventory

DEA & ARCOS Reporting

Sales Analysis

Accounts Payable

**General Ledger/Financial
Reporting**

Report Generator

Service and Repair Processing

Payroll

Fixed Assets

Work Order Processing

**Faxing, Imaging and CD-ROM
Report Storage (COLD)**

**RemoteNet B2B E-Commerce
and Web Based Customer
Information System**

**Accounts Receivable
Purchase Order Management
Inventory Management & Control
Warehouse Management
Physical Inventory
Pricing, Costing, and Contract
Management.**

Purchasing

Automatic Generation of Dropship Purchase Orders with full integration to Accounts Payable and Billing upon completion of the order.

Purchase orders can be issued in foreign currency.

Integrated Fax capabilities.

Full Importing capabilities including On-the-Water tracking with visibility of expected arrival dates.

Foreign Cost System with Landed Cost calculation.

Warehouse Management

"In the Six years our MDS system has been installed, our business needs have changed dramatically. MDS has grown right along with us... the system fits as well today as the first day we used it."

**-Akhil Agrawal
President
American Medical Depot**

Selection of physical Inventory procedures, including cycle counting procedures.

Pick location selection logic based on solid vs. broken cases and/or lot expiration dates.

Support for random location management by warehouse. Multiple bin location capabilities including environmental considerations. Primary location replenishment from secondary and overflow areas.

Bar coding capabilities including receiving, picking, and order validation.

Lot and Serial Number Tracking.

Interface to warehouse management system including RF (wireless) devices.

Marketing and Sales Analysis

Salesman laptop system.

Numerous standard sales analysis reports provided in both inquiry as well as report formats.

Telemarketing subsystem.

Report Writer for ad-hoc queries.

Ability to view any report on screen or route to printer.

" MDS has given our company the competitive edge we need in order to remain dominant in our market. We have received many compliments from hospitals and vendors alike, commenting on our quick, accurate service. Our fill rates have increased and our investment in inventory has decreased. MDS is taking us into the future."

**-Jeff Plotkin
Caligor Physician & Hospital Supply Corp.,
Division of Henry Schein, Inc.**

Accounting and Financial Management

Full integration of Accounts Payable, Receiving and Purchasing. Receipts are matched with vendor invoices on-line, generating the payable distribution, and correcting purchasing and inventory cost information simultaneously.

Foreign transaction systems, including purchasing in foreign currency, Letters of Credit Reconciliation, and landed cost development.

Vendor invoices may be selected for payment based upon due date and discount date.

Several methods of cash application, with automatic generation of charge back notices.

Interactive on-line Credit Control with sales order processing.

Financial statements may be prepared for Companies, and up to three additional levels of cost centers.

Flexible and fixed budgeting and allocations supported.

Financial report writer allows user to format reports and incorporate statistical data.

Download of file data to Windows based software, like Excel and WordPerfect.

"We looked at a lot of systems and chose MDS from The Systems House, Inc. We found MDS to be the best software for medical supply businesses, backed by one of the most responsive support teams. "

**Karen Goltermann
Neil Medical Group**

THE SYSTEMS HOUSE

The Systems House, Inc. (TSH), formed in 1979, is a company with a longstanding reputation for outstanding customer service. With in excess of 250 installed MDS clients throughout the United States and Canada, TSH is widely recognized as one of the premiere suppliers of software and computer solutions for the Healthcare distribution market. TSH has made a corporate commitment to Healthcare distribution. This dedication of effort assures our customers that the on-going development effort, so critical to their success in the complex and fast changing world of distribution, will be available when needed.

THE IMPLEMENTATION PROCESS

The MDS development process includes comprehensive end-user interviews including input from management regarding operational requirements, future directions and industry trends. Our technical staff provides guidance to the client on every aspect of the system from systems design and programming, through conversion, training, and installation, and concluding with on-going support services available twenty-four hours per day, seven days a week.

SERVICE AND COMMITMENT: THE KEY TO OUR SUCCESS

Computer system architecture works best when components from hardware to operating system software are properly selected and assembled. At The Systems House Inc., we maintain this integrity through our commitment to quality and outstanding customer service. We are dedicated to staying at the forefront of our field in every aspect of our business, from technology to customer service.

TSH - YOUR ONE STOP SHOP

TSH has the ability to provide and maintain your complete system - everything from hardware to software, network integration to on-going support. Often companies are faced with the problem that no one organization is familiar with all of their system components, thereby forcing the end user to deal with multiple sources in order to solve technical problems. However support issues are tightly interwoven, making it essential that your support provider be completely familiar with all aspects of your system. The on-going support service of The Systems House is inclusive of all these elements in addition to our application program support services, thereby providing the customer with a "one stop" source for all system needs 24 hours a day, 7 days a week.

Systems House support clients also benefit from a full, extended software warranty including upgrades and enhancements to the MDS software; data base and operating system software upgrades as well as periodic site audits. These site audits are designed to assist you in getting the most out of your MDS system.

Please feel free to contact us with any questions or comments you might have regarding how MDS can work for you. You can reach our sales team at sales@tshinc.com or call 1-800-637-5556.

**For a complimentary MDS demonstration,
or for more information on any of the items featured in this document,

Document Management

The Systems House Inc.'s Document Management System: The Paperless Office

Now you can throw out your file cabinets and eliminate the voluminous amount of paperwork that a distributor must deal with each day: proof of delivery, packing slips, customer invoices, vendor invoices, computer generated reports, notes, memos and more. With **Document Management System (DMS) from The Systems House, Inc.**, you can save hours or even days of staff time by eliminating manual filing and retrieval of documents.

DMS empowers businesses to:

- Archive and retrieve reports captured from your back office software (fully integrated with Master Distribution System (MDS)- the distribution ERP from The Systems House, Inc.).
- Save any preprinted form produced by MDS, i.e., invoices, checks, statements, etc.
- Scan, index and file documents such

as proof of delivery, vendor invoices, customer checks, etc.

DMS allows you to easily manage and archive your company's documents electronically.

- Retrieve documents quickly and easily, even while on the telephone with a customer.

The strength of DMS is in the retrieval of the data. With a traditional filing system, when a customer questions an invoice, a staff member in the accounting department must go to a file cabinet and find a proof of delivery, the invoice and packing slip. Those documents must then be scanned and faxed to the customer. This process can often take a day or more.

With DMS, the customer service rep can retrieve relevant documents while on the phone with the customer. By simply pressing a button, the documents are automatically faxed or e-mailed as an attachment to the customer.

Document Imaging from TSH will allow your employees to speed retrieval and indexing of documents while reducing costly errors. DMS uses industry standard Adobe PDF technology and has an open interface for seamless importing and exporting of documents. DMS is easy to use and can be integrated with many third party reporting tools. With TSH, you get service and support from a single source and the confidence of a company with over 20 years of systems experience backing you. So call 1-800-MDS-5556 for a FREE demonstration in your office.

Problems with Paper Filing

- **Inefficiency:** Professionals spend 5-15% of their time reading information, but up to **50% looking for it.**
- **7.5% of all Documents get lost, 3% get misfiled.**
- **Duplication:** The average document gets copied 19 times
- 90% of corporate information exists on paper. This abundance of printed material leaves corporations **open to breaches in confidentiality.**
- Of all the documents that get handled each day in an average office, 90% are just shuffled. Many firms **employ staff for document management.**
- **Bulk:** There are over 4 trillion paper documents in the US alone, growing at a rate of 22% a year.

Advantages of Electronic DMS

- Ability to **easily search and view any document** from anywhere on your network, and all users can view same document concurrently.
- Cannot lose documents, **redundant backups** allow for **disaster recovery** and off-site data storage.
- **Eliminate the need for duplication:** Print fax or email from PC.
- **Security:** Password protect electronic documents for added security.
- **No training or dedicated staff required,** any user can search from his or her PC.
- **Reduce the need for physical storage space.** With CD archiving, you can store approximately 23000 pages on 1 CD.

mds Delivery Master

Take control of your deliveries with Delivery Master Proof of Delivery module from TSH

MDS Delivery Master gives you greater control over the customer delivery process and provides complete electronic delivery records for your company to track performance and assist collections.

Delivery Master allows you to track and control the shipment and delivery of customer orders from the shipping dock right to your customer's hands. It ensures that the correct packages are delivered to each customer, and captures an electronic delivery signature for your records.

Improve Delivery Accuracy

Missed, lost or delayed shipments result in collection and customer service nightmares. Delivery Master provides an enhanced level of control to the delivery process improving accuracy and minimizing potential problems. Delivery Master controls the loading of each truck, and downloads an electronic itinerary to each driver's hand-held PDA

A bar coded label is created for each carton at the MDS verification station(s). As each package is loaded onto the truck, it is scanned to ensure that it belongs on that truck. After the truck is loaded, any missing packages are displayed on the PDA—virtually eliminating loading errors.

Create More Complete Delivery Records

As each delivery is made, the driver scans the package's barcode, to ensure the right package is being delivered. When the delivery is complete, the PDA displays any missing packages. Lastly, the customer's signature is captured electronically for

delivery verification. When the driver returns, Delivery Master uploads the captured information and verifies the delivery information. Captured signatures are stored for your permanent records, carton counts are verified,

With Delivery Master, proof of each delivery is captured electronically via a hand-held device and is easily available throughout your enterprise.

Benefits of Delivery Master

The MDS Proof of Delivery Module tracks the delivery of the customer's shipment from your shipping dock to his receiving location. By utilizing bar code and portable data entry (via PDA) equipment technology, the system ensures that:

1. Each box is placed on the correct truck
2. Each carton is delivered to the correct customer
3. The customer's signature, date and time, and number of cartons delivered are recorded and returned to the enterprise system.
4. The delivery information is easily available to everyone on the enterprise system, and can be reprinted, and/or faxed or E-mailed to the customer (The MDS Document Management System required for faxing and/or E-mail integration).

and any miscounts are flagged. Driver and delivery performance records are maintained for further analysis.

Monitor Driver Performance

Several key reports are produced from Delivery Master covering: date and time of each delivery, delivery discrepancies and elapsed time between deliveries, so that specific driver performance can be monitored.

Quick Access to Electronic Proof of Delivery

Customer signatures are captured and added to the database so that they are available for inquiry, and printing on customer invoices. In addition, if the MDS Document Management System (DMS) is also installed, proof of delivery information can easily be faxed or e-mailed to the customer. This instant access to proof of delivery will help improve customer service, collection rates and billing turnaround. The software is designed to operate either on a stand-alone basis or as an integrated portion of the MDS (Master Distribution System) enterprise system.

For more information on Delivery Master and Master Distribution System from The Systems House, Inc., contact TSH at 1-800-MDS-5556, or email sales@tshinc.com

*m*ds Warehouse

Achieve greater efficiency and accuracy with MDS Warehouse

Inventory and warehouse expense represent the **two largest investments in a distribution business**. An efficiently managed warehouse will provide the greatest financial return on investment, in addition to achieving greater levels of customer satisfaction.

The **MDS Warehouse Management System (WMS)** is a powerful solution for automating the inventory handling process in your warehouse. Utilizing state-of-the-art technology and proven product management techniques, it provides a comprehensive and cost-effective warehouse management solution.

WMS works as part of a complete

MDS solution by integrating wireless and bar-coding technologies, shipping systems and other warehouse automation equipment with your MDS Order Entry, Inventory Control, and Purchase Order modules.

Warehouse Preparation

The MDS system supports multiple warehouses and multiple locations within the

warehouse. Areas of the warehouse can be designated for solid case storage, and other locations for low unit of measure picking. Primary and backup locations can be specified for each item. In addition, the differing environmental (or

security) considerations for each product and location can be specified.

In many industries products are not uniformly bar coded. In this case, pick verification cannot be accomplished by the scanning of the bar code on the product. MDS compensates for this with two options. Product bar code labels (which may contain lot#, expiration date and/or weight) can be printed when the product is received. This will lead to highly accurate product identification, but is quite expensive and time consuming to implement. A second, less costly approach is to scan the location label (bar coded) to verify that the correct

product has been picked.

Receiving & Put-Away

WMS eliminates receiving errors by matching the receipt of goods with the original purchase order. Upon receipt, the system places the inventory in a holding location. The **system guides put-away to the most efficient location** for that item taking into account the following: pending backorders, space availability

in the primary pick and/or backup locations, environmental considerations, and special lot and/or dating requirements.

Pallet labels can be printed at this point. Merchandise received to fill pending backorders or transfer requests is

By utilizing bar coding and wireless technologies, MDS's Warehouse Management System allows you to achieve greater accuracy and efficiency throughout your warehouse.

directed to the cross-dock area and the backorder allocation process is initiated. The put-away operator proceeds to the specified location. The bar code on either the product or the location is scanned to insure that the product has been properly placed. The product is now available for use in picking or replenishment activities.

Replenishment

The MDS Order entry module controls the allocation of inventory to each customer order (or backorder). Based on the picking style that works best for your warehouse – order, wave, batch, or zone—MDS will electronically deliver the “picking document” to the WMS system.

The replenishment (or “pull-down”) process is initiated by the need to refill stock in the primary pick location. A batch process reviews all primary pick locations to determine which locations have fallen below their pre-set minimum level and are in need of restocking. A list of products needing replenishment is presented electronically to the operator in a logical warehouse picking sequence. This process can also be run during the

Business Benefits of MDS WMS

Achieve 99% inventory accuracy with leading-edge auto ID/barcode technologies to track inventory and insure disciplined inventory rotation, including expiration date, lot control and serial number control.

Reduce inventory levels, lost stock and carrying costs with real-time, quality information on inventory levels by location.

Maximize use of warehouse space with user-configured computer-directed put-away, replenishment and inventory allocation.

Optimize pick labor efficiency and accuracy and improve order fulfillment rates with advanced picking techniques for pick and pack, batch and zone picking, with bar code confirmation.

Decrease product returns through improved selection and put-away accuracy.

Increase labor productivity as the wireless device is always ready with the next line item or order to pick. Time to pick statistics can now be accurately recorded.

Eliminate costly inventory discrepancies between multiple inventory databases and batch-oriented warehouse management systems.

The Systems House, Inc.

Software Solutions for Distributors

1-800-MDS-5556

e-mail sales@tshinc.com • www.tshinc.com

day to replenish those items that have fallen below their minimums due to unusual picking demand. During the replenishment process, the picker scans the bar coded location or product labels to insure proper product movement.

Picking

WMS manages the picking process by providing the warehouse manager with a display of all orders ready for picking. The display includes the number of lines on each order, separating the case (bulk) picks from the low unit picks. The manager can prioritize the picks as appropriate and assign each order (or batch) to a specific picker. The program provides a display of the work assigned to each picker, and reports each picker's progress on a real-time basis.

Each Picker is given a separate identification code. The next order assigned is immediately given to the picker, as he completes each order. The order is displayed in pick location sequence, although the picker is given the flexibility to revise the picking sequence for an order. The item or location bar code is scanned to verify that the correct product has been picked. If the on-hand in the pick location is reduced below the minimum level, the operator will be asked to verify the count in the pick location, and the item is added to the replenishment list. If the picker is unable to pick the quantity specified on the display, an alert is issued so that the book inventory can be reviewed and adjusted if necessary.

WMS provides labor tracking by logging the start and end times of each order together with the number of lines and quantities. This provides management with statistics on the production of each picker. This information can be used for employee evaluation, or as a basis for an incentive compensation program.

The verification process is greatly simplified because MDS is aware of what has been shipped and packed in each carton. Inventory has already been updated. There is no need for dedicated shippers and checkers, freeing up warehouse personnel for other activities. The recorded package level detail allows the MDS system to generate ASN's (electronic Advanced Shipping Notices) for those customers requiring that document.

Shipping

MDS provides a streamlined shipping solution that produces packing slips, carton content labels and shipping labels. The MDS WMS system accommodates customers who ship with their own trucks as well as those utilizing third party shippers such as UPS, FedEx, RPS, and DHL. The shipping software gets shipping information from MDS, and returns the tracking number, weight, and shipping cost to MDS. Based on the customer's settings, MDS makes the decision whether or not to add a freight charge. Invoices and packing slips are printed at the shipping station. Lastly, customers can check the status of the shipment via the Internet.

If you use your own trucks, MDS Delivery Master improves the accuracy of routing and delivery. The warehouse manager can review orders ready for shipment, and rearrange the truck routes. A bar coded label is printed for each carton at the verification station. This label is used to track the package through the remainder of the delivery process. When the order is complete, the packages are brought to the correct shipping door.

Delivery Master controls the loading of each truck, and downloads an electronic itinerary to each driver's hand-held PDA device. As each package is loaded onto the truck, it is scanned to insure that it belongs on that truck. Any missing packages are displayed on the PDA—virtually eliminating loading errors.

As each delivery is made, the driver scans the package's barcode. The customer's signature is captured electronically to serve as proof of delivery. Later, the delivery information is uploaded to the MDS system and made available to respond to customer service inquiries. This information can also be faxed or e-mailed to the customer on demand. Delivery Master also provides the data to analyze driver performance. The date and time of each delivery, delivery discrepancies and elapsed time between deliveries are recorded so that specific driver performance can be monitored.

Competitive Advantage

MDS's Warehouse Management System provides a technological edge that maximizes the efficiency of your warehouse and supply chain personnel. This translates into a competitive advantage providing improved customer service, greater accuracy and greater profitability for your company.

For more information on WMS and Master Distribution System from The Systems House, Inc., contact TSH at 1-800-MDS-5556, or email sales@tshinc.com

Dove Medical Supply – Return Policy – Attachment 9

Occasionally it becomes necessary to return merchandise for exchange or credit. We have designed a Return Goods Policy to expedite and simplify this process. This policy complies with FDA, DOT, ICC and other applicable government regulations.

Dove will not charge COV facilities restocking fees unless products were special ordered or drop shipped from the manufacturer. In the event a return request is made for a special ordered or drop shipped product, the manufacturers restocking policy will be applicable.

As a distributor, product warranties are provided by our manufacturers. Dove will facilitate all warranty claims for products purchased from Dove.

All merchandise returned to Dove for credit MUST be accompanied by a Return Authorization (RA) Number. Return authorization requests can be made via telephone, fax, email or on our website at the following address: <http://www.dovemedicalsupply.com/RMA.aspx> You will then be provided with information on how to return the product(s) to Dove. A restocking fee may apply. Authorized product returns must be received by Dove within 30 days of original ship date.

NO merchandise will be accepted for credit without an authorized RA number. All claims must be made within five (5) business days after receipt of order (defective products are excluded).

Non-stock, special order, and/or items drop shipped directly from the manufacturer may not be returned for credit except when defective, or when shipped in error.

Authorized product returns must be returned in original, unopened package and original shipping container where applicable.

Credit will be issued only after the merchandise is received and approved by Dove.

Note: Claims for products damaged in transit must be reported to the carrier upon receipt. Please contact DOVE as well so that replacement products can be shipped out immediately. Document all claims for damaged shipments, photographs should be taken if possible.

Dove Medical Supply – Lab Start Up – Attachment 10

Dove offers an additional 10% discount for complete lab setups!

End users simply select the products they need, preferred manufacturers, etc. and Dove will do the rest. We will also provide GOOD/BETTER/BEST options.

DOVE Laboratory Set-up Forms are available on our website for both research and clinical laboratory applications!

Dove Medical Supply – Sample Documents – Attachment 11

DOVE has the ability to design custom reports and forms for our customers. In the event customer(s) need a document we don't current utilize, we will make every effort to accommodate each customers need. We welcome any suggestions you may have to better serve you.

New Document/Report implementation usually takes no more than a few days. We will work with each COV facility to custom design any documents or reports they request.

Other Services

Technical Resource Library

- Chemical Compatibility Charts
- Glove Chemical Resistant Charts
- Material Safety Data Sheets
- New Product Information
- Manufacturer Product Recalls
 - (Customers with a purchase history of a recalled products will be notified by DOVE of the recall.)

And much more! DOVE welcomes input from customers as to resources they would like to see on this site.

COV Dedicated Web Portal

Dove has designed a dedicated web portal for Commonwealth Facilities. This portal contains information specific to the COV. Examples of content are as follows:

- Contract Specific Information
- Return Authorization Requests
- Special Promotions and Discounts
- COV eNEW – Quarterly Newsletter
- Literatures
- And much more!

DOVE welcomes COV content input for this site. Our culture is to do things your way!

We can easily adapt our website to fit your needs.

InnoCal®, a division of Cole-Parmer®, a DOVE manufacturing partner, specializes in instrument calibration. This accredited metrology laboratory has helped thousands of customers and meet ISO, FDA, USDA, EPA, GLPs/cGMPs and other quality standards.

If your product qualifies for calibration, simply call us for a quote. Instruments are picked up and sent in for calibration. A tracking number is sent to the customer when products is returned.

We provide you with the documentation you need to meet your most stringent quality requirements for the control of inspection, measuring, and test equipment. We will calibrate your new or existing instrument traceable to NIST standards. Calibration Report with test data, will be provided.

Convenient Reminders

Based on your requirements, InnoCal will send you a reminder when it is time to recalibrate or service your instruments.

Single-Use Custom BioProcess Assemblies
BioConnect®—providing assemblies for top companies in the pharmaceutical, aerospace, and paper and pulp industries. Get custom assemblies crafted to your exact specifications. Select from your favorite brands. Rely on complete validation.

CUSTOM LOGO PRODUCTS

Sometimes a specification or package size just doesn't meet your requirements. We understand that one solution does not fit all. If you can't find exactly what you need, our Custom Ordering Solutions can help locate the product you need. We have access to thousands of products beyond what is offered here.

REQUEST FOR PROPOSAL
RFP# MFK-880

Issue Date: November 17, 2015
Title: Scientific Equipment, Supplies, and Chemicals
Issuing Agency: Commonwealth of Virginia
James Madison University
Procurement Services MSC 5720
752 Ott Street, Wine Price Bldg.
First Floor, Suite 1023
Harrisonburg, VA 22807

Period of Contract: From date of award through one (1) year with four (4) additional one year renewal periods.
